

District Well No. _____

Cow Creek Groundwater Conservation District

Meter Reading Form

Monitoring, Data Collection, Recordkeeping and Reporting Requirements

The Permittee shall meter and record the monthly volume of water produced from the permitted well

In order to demonstrate compliance with mandatory water reduction requirements, any well subject to the production records required under Rule 5.6.C, shall submit such records to the District on a monthly basis during drought **stages 2 through 6**.

In the event that annual production exceeds the permitted amount, the Permittee shall give written notice to the District of such exceedance within 5 days after its occurrence.
